- Acquired two shopping centers and one land parcel for a total of \$55.9 million

## **Management Commentary**

Jeff Edison, Chairman and Chief Executive Officer of PECO stated: "The PECO team delivered another solid quarter of growth with same-center NOI increasing by 3.7%. Nareit FFO increased 4.9%, and Core FFO increased 4.5%. The continued strength of our operating performance is attributable to our differentiated and focused strategy of owning grocery-anchored neighborhood shopping centers anchored by the #1 or #2 grocer by sales in a market, the PECO team's ability to drive results at the property level and the many advantages of the suburban markets where we operate our centers. Based on the continued strong operating environment and health of our Neighbors, we are pleased to affirm our full year 2024 earnings guidance for Nareit and Core FFO, which represents year-over-year growth of 6% and 3% at the midpoints, respectively."

## Financial Results for the First Quarter Ended March 31, 2024

## **About Phillips Edison & Company**

Phillips Edison & Company, Inc. ("PECO") is one of the nation's largest owners and operators of omni-channel grocery-anchored shopping centers. Founded in 1991, PECO has generated strong results through its vertically-integrated operating platform and national footprint of well-occupied shopping centers. PECO's centers feature a mix of national and regional retailers providing necessity-based goods and services in fundamentally strong markets throughout the United States. PECO's top grocery anchors include Kroger, Publix, Albertsons and Ahold Delhaize. As of March 31, 2024, PECO managed 304 shopping centers, including 284 wholly-owned centers comprising 32.4 million square feet across 31 states and 20 shopping centers owned in one institutional joint venture. PECO is focused on creating great omni-channel, grocery-anchored shopping experiences and improving communities, one neighborhood shopping center at a time.

PECO uses, and intends to continue to use, its Investors website, which can be found at https://investors.phillipsedison.com, as a means of disclosing material nonpublic information and for complying with its disclosure obligations under Regulation FD.

## **Discussion and Reconciliation of Non-GAAP Measures**

## Same-Center Net Operating Income

The Company presents Same-Center NOI as a supplemental measure of its performance. The Company defines NOI as total operating revenues, adjusted to exclude non-cash revenue items, less property operating expenses and real estate taxes. For the three months ended March 31, 2024 and 2023, Same-Center NOI represents the NOI for the 270 properties that were wholly-owned and operational for the entire portion of all comparable reporting periods. The Company believes Same-Center NOI provides useful information to its investors about its financial and operating performance because it provides a performance measure of the revenues and expenses directly involved in owning and operating real estate assets and provides a perspective not immediately apparent from net income (loss). Because Same-Center NOI excludes the change in NOI from properties acquired or disposed of after December 31, 2022, it highlights operating trends such as occupancy levels, rental rates, and operating costs on properties that were operational for all comparable periods. Other REITs may use different methodologies for calculating Same-Center NOI, and accordingly, PECO's Same-Center NOI may not be comparable to other REITs.

Same-Center NOI should not be viewed as an alternative measure of the Company's financial performance as it does not reflect the operations of its entire portfolio, nor does it reflect the impact of general and administrative expenses, depreciation and amortization, interest expense, other income (expense), or the level of capital expenditures and leasing costs necessary to maintain the operating performance of the Company's properties that could materially impact its results from operations.

## Nareit Funds from Operations and Core Funds from Operations

Nareit FFO is a non-GAAP financial performance measure that is widely recognized as a measure of REIT operating performance. The National Association of Real Estate Investment Trusts ("Nareit") defines FFO as net income (loss) computed in accordance with GAAP, excluding: (i) gains (or losses) from sales of property and gains (or losses) from change in control; (ii) depreciation and amortization related to real estate; and (iii) impairment losses on real estate and impairments of in-substance real estate investments in investees that are driven by measurable decreases in the fair value of the depreciable real estate held by the unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures are calculated to reflect Nareit FFO on the same basis. The Company calculates Nareit FFO in a manner consistent with the Nareit definition.

Core FFO is an additional financial performance measure used by the Company as Nareit FFO includes certain non-comparable items that affect its performance over time. The Company believes that Core FFO is helpful in assisting management and investors with the assessment of the sustainability of operating performance in future periods, and that it is more reflective of its core operating performance and provides an additional measure to compare PECO's performance across reporting periods on a consistent basis by excluding items that may cause short-term fluctuations in net income (loss). To arrive at Core FFO, the Company adjusts Nareit FFO to exclude certain recurring and non-recurring items including, but not limited to: (i) depreciation and amortization of corporate assets; (ii) changes in the fair value of the earn-out liability; (iii) amortization of unconsolidated joint venture basis differences; (iv) gains or losses on the extinguishment or modification of debt and other; (v) other impairment charges; (vi) transaction and acquisition expenses; and (vii) realized performance income.

Nareit FFO and Core FFO should not be considered alternatives to net income (loss) under GAAP, as an indication of the Company's liquidity, nor as an indication of funds available to cover its cash needs, including its ability to fund distributions. Core FFO may not be a useful measure of the impact of long-term operating performance on value if the Company does not continue to operate its business plan in the manner currently contemplated.

Accordingly, Nareit FFO and Core FFO should be reviewed in connection with other GAAP measurements, and should not be viewed as more prominent measures of performance than net income (loss) or cash flows from operations prepared in accordance with GAAP. The Company's Nareit FFO and Core FFO, as presented, may not be comparable to amounts calculated by other REITs.

## Earnings Before Interest, Taxes, Depreciation, and Amortization for Real Estate and Adjusted EBITDAre

Nareit defines Earnings Before Interest, Taxes, Depreciation, and Amortization for Real Estate ("EBITDAre") as net income (loss) computed in accordance with GAAP before: (i) interest expense; (ii) income tax expense; (iii) depreciation and amortization; (iv) gains or losses from disposition of depreciable property; and (v) impairment write-downs of depreciable property. Adjustments for unconsolidated partnerships and joint ventures are calculated to reflect EBITDAre on the same basis.

Adjusted EBITDAre is an additional performance measure used by the Company as EBITDAre includes certain non-comparable items that affect the Company's performance over time. To arrive at Adjusted EBITDAre, the Company excludes certain recurring and non-recurring items from EBITDAre, including, but not limited to: (i)

changes in the fair value of the earn-out liability; (ii) other impairment charges; (iii) amortization of basis differences in the Company's investments in its unconsolidated joint ventures; (iv) transaction and acquisition expenses; and (v) realized performance income.

The Company uses EBITDAre and Adjusted EBITDAre as additional measures of operating performance which allow it to compare earnings independent of capital structure, determine debt service and fixed cost coverage, and measure enterprise value. Additionally, the Company believes they are a useful indicator of its ability to support its debt obligations. EBITDAre and Adjusted EBITDAre should not be considered as alternatives to net income (loss), as an indication of the Company's liquidity, nor as an indication of funds available to cover its cash needs, including its ability to fund distributions. Accordingly, EBITDAre and Adjusted EBITDAre should be reviewed in connection with other GAAP measurements, and should not be viewed as more prominent measures of performance than net income (loss) or cash flows from operations prepared in accordance with GAAP. The Company's EBITDAre and Adjusted EBITDAre, as presented, may not be comparable to amounts calculated by other REITs.

## **Introductory Notes**

## SUPPLEMENTAL INFORMATION

Phillips Edison & Company, Inc. ("we," the "Company," "our," "us," or "PECO") is one of the nation's largest owners and operators of omni-channel grocery-anchored neighborhood shopping centers. The enclosed information should be read in conjunction with our filings with the U.S. Securities and Exchange Commission ("SEC"), including, but not limited to, our Form 10-Qs filed quarterly and Form 10-Ks filed annually. Additionally, the enclosed information does not purport to disclose all items required under Generally Accepted Accounting Principles ("GAAP").

## **CAUTIONARY NOTE ABOUT FORWARD-LOOKING STATEMENTS**

This supplemental disclosure contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The Company intended such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 and includes this statement for purposes of complying with the safe harbor provisions. Such forward-looking statements can generally be identified by the Company's use of forward-looking terminology such as "may," "will," "expect," "intend," "anticipate," "estimate," "believe," "continue," "seek," "objective," "goal," "focus," "priority," "should," "could," "potential," "possible," "look forward," "optimistic," or other similar words. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this supplemental disclosure. Such statements include, but are not limited to: (a) statements about the Company's plans, strategies, initiatives, and prospects; (b) statements about the Company's underwritten incremental yields; and (c) statements about the Company's future results of operations, capital expenditures, and liquidity. Such statements are subject to known and unknown risks and uncertainties, which could cause actual results to differ materially from those projected or anticipated, including, without limitation: (i) changes in national, regional, or local economic climates; (ii) local market conditions, including an oversupply of space in, or a reduction in demand for, properties similar to those in the Company's portfolio; (iii) vacancies, changes in market rental rates, and the need to periodically repair, renovate, and re-let space; (iv) competition from other available shopping centers and the attractiveness of properties in the Company's portfolio to its tenants; (v) the financial stability of the Company's tenants, including, without limi

Additional important factors that could cause actual results to differ are described in the filings made from time to time by the Company with the SEC and include the risk factors and other risks and uncertainties described in the Company's 2023 Annual Report on Form 10-K, filed with the SEC on February 12, 2024, which is accessible on the SEC's website at www.sec.gov. Except as required by law, the Company does not undertake any obligation to update or revise any forward-looking statements contained in this supplement to reflect actual results, new information or future events, changes in assumptions or changes in other factors affecting such forward-looking statements.

## **NOTICE REGARDING NON-GAAP FINANCIAL MEASURES**

In addition to GAAP measures, this supplemental disclosure contains and refers to certain non-GAAP measures. We do not consider our non-GAAP measures included in our Glossary of Terms to be alternatives to measures required in accordance with GAAP. Certain non-GAAP measures should not be viewed as an alternative measure of our financial performance as they may not reflect the operations of our entire portfolio, and they may not reflect the impact of general and administrative expenses, depreciation and amortization, interest expense, other income (expense), or the level of capital expenditures and leasing costs necessary to maintain the operating performance of our properties that could materially impact our results from operations. Additionally, certain non-GAAP measures should not be considered as an indication of our liquidity, nor as an indication of funds available to cover our cash needs, including our ability to fund distributions, and may not be a useful measure of the impact of long-term operating performance on value if we do not continue to operate our business in the manner currently contemplated. Accordingly, non-GAAP measures should be reviewed in connection with other GAAP measurements, and should not be viewed as more prominent measures of performance than net income (loss) or cash flows from operations prepared in accordance with GAAP. Other REITs may use different methodologies for calculating similar non-GAAP measures, and accordingly, our non-GAAP measures may not be comparable to other REITs. Reconciliations of our non-GAAP measures to the most directly comparable GAAP financial measures are included in this supplemental disclosure on pages 15-19 and definitions of our non-GAAP measures are included in our Glossary of Terms beginning on page 61.

## Introductory Notes

## PRO RATA FINANCIAL INFORMATION

We may present our consolidated financial information inclusive of our prorated portion owned through unconsolidated joint ventures. The presentation of pro rata financial information has limitations as an analytical tool, which include but are not limited to: (i) amounts shown on individual line items were calculated by applying our overall economic ownership interest percentage determined when applying the equity method of accounting, and may not represent our legal claim to the assets and liabilities, or the revenues and expenses; and (ii) other REITs may use different methodologies for calculating their pro-rata interest. Accordingly, pro-rata financial information should be reviewed in connection with other GAAP measurements, and should not be viewed as more prominent measures of performance than net income (loss) or cash flows from operations prepared in accordance with GAAP.

## **Management Commentary**

Jeff Edison, Chairman and Chief Executive Officer of PECO stated: "The PECO team delivered another solid quarter of growth with same-center NOI increasing by 3.7%. Nareit FFO increased 4.9%, and Core FFO increased 4.5%. The continued strength of our operating performance is attributable to our differentiated and focused strategy of owning grocery-anchored neighborhood shopping centers anchored by the #1 or #2 grocer by sales in a market, the PECO team's ability to drive results at the property level and the many advantages of the suburban markets where we operate our centers. Based on the continued strong operating environment and health of our Neighbors, we are pleased to affirm our full year 2024 earnings guidance for Nareit and Core FFO, which represents year-over-year growth of 6% and 3% at the midpoints, respectively."

## **About Phillips Edison & Company**

Phillips Edison & Company, Inc. ("PECO") is one of the nation's largest owners and operators of omni-channel grocery-anchored shopping centers. Founded in 1991, PECO has generated strong results through its vertically-integrated operating platform and national footprint of well-occupied shopping centers. PECO's centers feature a mix of national and regional retailers providing necessity-based goods and services in fundamentally strong markets throughout the United States. PECO's top grocery anchors include Kroger, Publix, Albertsons and Ahold Delhaize. As of March 31, 2024, PECO managed 304 shopping centers, including 284 wholly-owned centers comprising 32.4 million square feet across 31 states and 20 shopping centers owned in one institutional joint venture. PECO is focused on creating great omni-channel, grocery-anchored shopping experiences and improving communities, one neighborhood shopping center at a time.

PECO uses, and intends to continue to use, its Investors website, which can be found at https://investors.phillipsedison.com, as a means of disclosing material nonpublic information and for complying with its disclosure obligations under Regulation FD.

#### Glossary of Terms

| Term  | Definition  |
|---|---|
| Anchor space  | A space greater than or equal to 10,000 square feet of gross leasable area (GLA).   |
| Annualized base rent (ABR)  | Refers to the monthly contractual base rent as of the end of the applicable reporting period multiplied by twelve months.   |
| ABR Per Square Foot (PSF)   | ABR divided by leased GLA. Increases in ABR PSF can be an indication of our ability to create rental rate growth in our centers, as well as an indication of demand for our spaces, which generally provides us with greater leverage during lease negotiations.  |
| Cap rate  | Estimated in-place NOI for the property divided by the property's contractual purchase or sale price.   |
| Comparable lease  | Refers to a lease with consistent terms that is executed for substantially the same space that has been vacant less than twelve months.   |
| Comparable rent spread  | Calculated as the percentage increase or decrease in first-year ABR (excluding any free rent or escalations) on new, renewal, and option leases where the lease was considered a comparable lease. This metric provides an indication of our ability to generate revenue growth through leasing activity.   |
| Cost of executing new leases  | Refers to certain costs associated with new leasing, namely, tenant improvement costs and tenant concessions.   |
| EBITDAre, and Adjusted EBITDAre (collectively, "EBITDAre metrics") <sup>(1)</sup> | Nareit defines EBITDAre as net income (loss) computed in accordance with GAAP before: (i) interest expense; (ii) income tax expense; (iii) depreciation and amortization; (iv) gains or losses from disposition of depreciable property; and (v) impairment write-downs of depreciable property. Adjustments for unconsolidated partnerships and joint ventures are calculated to reflect EBITDAre on the same basis. |
|   | To arrive at Adjusted EBITDAre, we exclude certain recurring and non-recurring items from EBITDAre, including, but not limited to: (i) changes in the fair value of the earn-out liability; (ii) other impairment charges; (iii) amortization of basis differences in our investments in our unconsolidated joint ventures; (iv) transaction and acquisition expenses; and (v) realized performance income.           |
|   | We use EBITDAre and Adjusted EBITDAre as additional measures of operating performance which allow us to compare earnings independent of capital structure and evaluate debt leverage and fixed cost coverage.   |
| Equity market capitalization  | The total dollar value of all outstanding shares using the closing price for the applicable date.   |
| Grocer health ratio   | Amount of annual rent and expense recoveries paid by the Neighbor as a percentage of gross sales. Low grocer health ratios provide us with the knowledge to manage our rents effectively while seeking to ensure the financial stability of our grocery anchors.  |
| Gross leasable area (GLA)   | The total occupied and unoccupied square footage of a building that is available for Neighbors or other retailers to lease.   |
| Inline space  | A space containing less than 10,000 square feet of GLA.   |
| Leased occupancy  | Calculated as the percentage of total GLA for which a lease has been signed regardless of whether the lease has commenced or the Neighbor has taken possession. High occupancy is an indicator of demand for our spaces, which generally provides us with greater leverage during lease negotiations.   |
| Nareit  | National Association of Real Estate Investment Trusts.  |

#### Glossary of Terms

Nareit Funds from Operations Attributable to Stockholders and OP Unit Holders (Nareit FFO), Core FFO Attributable to Stockholders and OP Unit Holders (Core FFO), and Adjusted FFO Attributable to Stockholders and OP Unit Holders (Adjusted FFO)<sup>(1)</sup>

Nareit defines Funds from Operations ("FFO") as net income (loss) computed in accordance with GAAP, excluding: (i) gains (or losses) from sales of property and gains (or losses) from change in control; (ii) depreciation and amortization related to real estate; (iii) impairment losses on real estate and impairments of in-substance real estate investments in investees that are driven by measurable decreases in the fair value of the depreciable real estate held by the unconsolidated partnerships and joint ventures; and (iv) adjustments for unconsolidated partnerships and joint ventures, calculated to reflect FFO on the same basis. We believe FFO provides insight into our operating performance as it excludes certain items that are not indicative of such performance.

Core FFO is calculated as Nareit FFO adjusted to exclude certain recurring and non-recurring items including, but not limited to: (i) depreciation and amortization of corporate assets; (ii) changes in the fair value of the earn-out liability; (iii) amortization of unconsolidated joint venture basis differences; (iv) gains or losses on the extinguishment or modification of debt and other; (v) other impairment charges; (vi) transaction and acquisition expenses; and (vii) realized performance income. Core FFO provides further insight into the sustainability of our operating performance and provides an additional measure to compare our performance across reporting periods on a consistent basis by excluding items that may cause short-term fluctuations in net income (loss).

Adjusted FFO is calculated as Core FFO adjusted to exclude: (i) straight-line rent and non-cash adjustments, such as amortization of market lease adjustments, debt discounts, deferred financing costs, and market debt adjustments; (ii) recurring capital expenditures, tenant improvement costs, and leasing commissions; (iii) non-cash share-based compensation expenses; and (iv) our prorated share of the aforementioned adjustments for our unconsolidated joint ventures. Adjusted FFO provides further insight into our portfolio performance by focusing on the revenues and expenditures directly involved in our operations and the management of our entire real estate portfolio. Recurring property-related capital expenditures are costs to maintain properties and their common areas, including new roofs, paving of parking lots, and other general upkeep items, and recurring corporate capital expenditures are primarily costs for computer software and equipment.

Calculated as total operating revenues, adjusted to exclude non-cash revenue items, less property operating expenses and real estate taxes. NOI provides insight about our financial and operating performance because it provides a performance measure of the revenues and expenses directly involved in owning and operating real estate assets and provides a perspective not immediately

Calculated by dividing (i) the total square feet of retained Neighbors with current period lease expirations by (ii) the total square feet of leases expiring during the period. The portfolio retention rate provides insight into our ability to retain Neighbors at our shopping centers as their leases approach expiration. Generally, the costs to retain an existing Neighbor are lower than costs to replace with a new Neighbor.

Calculated by dividing (i) total recovery income by (ii) total recoverable expenses during the period. A high recovery rate is an indicator of our ability to recover certain property operating expenses and capital costs from our Neighbors.

Larger scale projects that typically involve substantial demolition of a portion of the shopping center to accommodate new retailers. These projects typically are accompanied with new construction and site infrastructure costs.

Refers to a property, or portfolio of properties, that has been owned and operational for the entirety of each reporting period (i.e., since January 1, 2023).

Underwritten incremental unlevered vield

Reflects the yield we target to generate from a project upon expected stabilization and is calculated as the estimated incremental NOI for a project at stabilization divided by its estimated net project investment. The estimated incremental NOI is the difference between the estimated annualized NOI we target to generate by a project upon stabilization and the estimated annualized NOI without the planned improvements. Underwritten incremental unlevered yield does not include peripheral impacts, such as lease rollover risk or the impact on the long term value of the property upon sale or disposition. Actual incremental yields may vary from our underwritten incremental yield range based on the actual total cost to complete a project and its actual incremental NOI at stabilization.
